Recertification 4-Hour Course Recertification 4-Hour Course Online Classroom **MS4CECI Course Information** One of our most popular courses, this 2-day seminar is developed and designed specifically for municipal separate storm sewer system (MS4) compliance and enforcement personnel, field inspectors, stormwater managers and consultants, with a focus on MS4 stormwater

An examination is conducted immediately following classroom instruction. Course attendees

are required to achieve a minimum examination score of 70% for their 3-year MS4CECI

The MS4CECI course was designed by federal, state and local regulatory personnel as well

as stormwater consultants with over 100 years of combined experience in educating MS4

stormwater personnel to manage and perform stormwater inspections of municipal,

commercial, industrial and construction activities. The 2-day seminar teaches federal and

state stormwater laws as well as local ordinances, and provides instruction on how to

perform outfall investigations, prioritize sub watersheds for inspections and properly comply with and enforce the various NPDES permits assigned for MS4s, construction sites and industrial facilities.

What is a Hot Spot or Highly Visible **MS4 Stormwater** Pollutant Source (HVPS)? Once you see it Inspector causing an illicit discharge, how are you supposed to inspect one as compared to at

Everyone agrees that we need to keep our watersheds clean and it's the MS4 Stormwater

Comply with Their Own NPDES Permits!

with Clean Water Act NPDES rules & regulations! Every time you go fishing or jump in the lake to take a swim, be grateful for the our NPDES permitting program that makes it all possible IF polluters are made to comply. Respecting our neighbors downstream is what America is all about and it's compliance with NPDES Permits that helps us do that! "We all need to view NPDES Permit compliance as an investment in our nation's future quality of life, so our children will also have an equally great place to live, swim, fish, boat and hunt tomorrow! " - T. Luke Owen

just another reminder of how important it is that we Americans demand their compliance
